

ASHISH PISEY

Senior iOS Engineer | 12 years shipping consumer apps | IIT Jodhpur MTech AI/ML

+91 9619613763 | ashish.dev.ios@gmail.com | linkedin.com/in/ashishpisey | github.com/ashishpatill | Open to Remote

SUMMARY

iOS engineer with 12 years shipping consumer apps (Shaadi.com 900K+ downloads; Meru crash-free 78% to 99%+). Owned onboarding, payments-adjacent flows, maps and live tracking, Swift migrations, Fastlane CI/CD, SiriKit, and CoreML. MTech AI/ML at IIT Jodhpur. Studying agentic AI and ML research, and building Tell Proof. HarvardX verified CS109xa (May 2025). Mumbai. Available remote. UIKit and SwiftUI with MVVM and feature ownership.

SKILLS

iOS: Swift, Objective-C, UIKit, SwiftUI, Auto Layout, Core Data, GCD, Core Location, MapKit, SiriKit, WidgetKit, CoreML, AVFoundation, Instruments, Fastlane, Appium, XCTest

Delivery: Fastlane CI/CD, GitHub Actions, App Store, code review, team lead

Other: Python, FastAPI, MCP, TypeScript

WORK EXPERIENCE

Open Source & MTech Research

May 2026 - Present, Self-employed, Mumbai

- MTech AI and Machine Learning at IIT Jodhpur. Launching SuperLearnAI. Building Tell Proof and bimrag.
- Applying coursework to shipping software: agentic AI, retrieval, and ML research.

Tech lead

Arthasahay Technologies Pvt Ltd, Dec 2024 - May 2026, Full-time

- Built a platform for screening listed equities from SEBI filings: annual and quarterly reports, fundamentals, and API data points.
- Solo engineer at the start. Owned features from design through frontend and backend integration.
- Worked with a data engineer to turn large filings into investor-facing insights.

Independent Study & AI Projects

Jan 2023 - Jul 2024, Self-employed

- HarvardX CS109xa Machine Learning and AI with Python. Admitted to IIT Jodhpur MTech AI/ML.
- Started SuperLearnAI and the agentic and retrieval work that later became Tell Proof and bimrag.

iOS Engineer

Tech Unicorn (freelance / contract), Aug 2022 - Jan 2023, Remote, UAE

- Azure iOS SDK for real-time communication; one-to-one and group chat/calling infrastructure (interaction capacity +150%).
- Online courtroom prototype in Swift/SwiftUI with live video and audio calling.

Lead iOS Instructor

Coding Dojo, Sep 2021 - Mar 2022, Remote, USA

- Mentored 50+ iOS engineers; ~90% course completion. Curriculum aligned to current industry practice.

Senior Lead iOS Engineer

People Interactive, Shaadi.com (900K+), Jun 2020 - Sep 2021, Mumbai

- Fastlane CI/CD, deployment time -50%. SiriKit and on-device CoreML. SwiftUI/Combine adoption, ~30% faster dev cycles.
- Launch time -40%. Siri shortcuts and deep linking; ~25% DAU lift on those surfaces.

Associate Lead iOS Engineer

People Interactive, Shaadi.com, Aug 2018 - Jun 2020, Mumbai

- Led iOS framework integrations on a 900K+ download app. WidgetKit, analytics, release coordination and code reviews.
- Onboarding (login, registration, reset, social login), photo upload, profile completion, Instagram photo integration, Firebase A/B and remote config.

iOS Team Lead

Meru Mobility Pvt Ltd, Feb 2017 - Jul 2018, Mumbai

- Crash-free sessions 78% to 99%+ via Instruments. Google Maps SDK (routes, live cab tracking), PCI-compliant payments, real-time event tracking.
- Mentored juniors through reviews and knowledge-sharing.

Senior iOS Developer

People Interactive, Shaadi.com, Jan 2015 - Jan 2017, Mumbai

- Led Objective-C to Swift migration; navigation redesign (hamburger to tab bar); MVVM; bug reports -30%; custom analytics, +20% engagement.

iOS Developer

Nisos Technologies, Sep 2014 - Jan 2015, Navi Mumbai

- Enterprise survey/feedback app: Core Data offline sync and native UI.

iOS Developer

Lionking Media, Apr 2013 - Sep 2014, Mumbai

- Client apps including Star Sports IPL 2014 (onsite Prime Focus Bangalore: commentary, ball-by-ball, push, ads). Independent app 50K+ downloads; children's ebook with animation and audio.

EDUCATION

IIT Jodhpur

MTech, AI & Machine Learning, Jan 2025 - Dec 2026 (expected)

- Completed: ML, Deep Learning, Optimisation, MLOps, DLOps, GPU Programming (CUDA), Advanced AI, DIP, Cybersecurity, Virtual Cloud, Hardware Design for AI, Foundational Models & GenAI, System Design. Thesis ongoing.

Sinhgad Academy of Engineering, Pune

B.E. Electronics & Telecommunication, 2007 - 2011, Pune
